*Must provide documentation to support claim as owner's legal representative

SITE PLAN WORKSHEET

Place a mark (X) beside each item that has been indicated on your site plan. Incomplete site plans will be returned to you for completion. Remember: Your property will not be scheduled for an evaluation until we have received a completed application, site plan, and all proposed items are marked on the property.

- The dimensions of the property.
- The location of all existing and proposed structures (e.g. facility served by well, outbuildings, pools, animal barns/feedlots) as well as driveway location.
- The location of all existing and proposed septic systems (surface and subsurface) on or adjoining this property.
- The site you would prefer your well to be located.
- A north arrow or other sufficient directional indicator.
- N/A The location of any easements or right of ways on the property.
- N/A The location of all existing wells, springs or water lines on the property.
- N/A Any surface waters or designated wetlands on or adjacent to this property.
- N/A Any below ground chemical or petroleum storage tanks on or adjacent to property.
- N/A Any known sites of underground contamination.
- N/A The location of any fields on or adjacent to property that are used for industrial, municipal sludge spreading or wastewater-irrigation sites.

DISTANCE REQUIREMENTS: Well must be located a minimum of: 100 feet from septic system, 25 feet from building foundation, 50 feet from surface waters, 50 feet from above/below ground petroleum storage tanks, 100 feet from barns/feedlots, 100 feet from any industrial treatment or sewage collecting facility, and chemical storage areas, 500 feet from sanitary landfills. For any well serving a single-family dwelling where the above setbacks cannot be met due to lot size or other fixed conditions, the well shall be the maximum distance, but in no case be less than: 50 feet from septic system, privies, and animal barns.
